# Brief Reporton

**“FUTURE SKILLS PROGRAM” in  
collaboration with  
“St. Aloysius Degree College 2022 - 23”**

**Submitted by:**

**TNS India Foundation**

Partners in Economic Transformation

**Brand affiliate of TechnoServe Inc.**

## ABOUT TNS INDIA FOUNDATION

**TNS India Foundation** has been a pioneer in the Youth Skilling and Employability domain since 2015. Through the Youth Employability programs, TNSIF provides transformative workforce readiness skills training for youth to make **better career choices** and **build a strong career path**. The program also provides placement support through corporate linkages with large and small firms.

Our goal is to tackle the increasing need felt by fresh graduates- to sharpen and improve interview preparedness and make informed career choices after their graduation. In the last seven years (2015-2022), we have trained approximately 22000 youth, and have provided placements to 65%+ youth in BFSI and IT/ITeS companies such as ICICI Bank, Axis Bank, HDFC Life Insurance, Kotak Mahindra Bank, TCS, Wipro, Accenture and so on. These students have been able to increase their family incomes by 50%, and have successfully progressed in their careers.

## OBJECTIVE

Given the COVID-19 pandemic, TNS India Foundation recognizes the pressing need to upskill youth and provide stable job placements to them. Furthermore, given the shift to the online learning mode, we realize the need for innovative, technology-based solutions that can help upskill youth and empower them to succeed in today's competitive environment.

At the same time, we understand that college institutions may not have the bandwidth or capacity to create and deliver such solutions for enrolled students. Therefore, to bridge this gap, our Future Skills Program provides **FREE OF COST** employability skills training to youth through an **Online Learning Platform (OLP)**, for a future in corporate careers, by leveraging and equipping college faculty, thereby strengthening the college institution(s):

TNS India Foundation will train college faculty on program objectives, curriculum, and coaching skills. The college faculty will drive the training program by facilitating classroom activities, clearing doubts, conducting career counseling, etc.

College students will have access to the employability skills curriculum on the Online Learning Platform through which they will upskill themselves (self-learning). They will also attend the sessions conducted by the college faculty, and clarify any doubts.

Once students successfully complete training, they will be eligible for placements, which will be provided by TNS India Foundation.
