AUTHENTICATED ERP DOCUMENTS DULY CERTIFIED BY COMPETENT AUTHORITY

TALLY ERP FOR ACCOUNTS

TALLY ERP

Tally ERP 9 is popular accounting software widely used in the institution for managing various financial aspects.

The three key features in the institution:

Accounting: Tally ERP 9 offers comprehensive accounting capabilities, including ledger management, voucher entry, balance sheet generation.

Financial Reporting: Tally ERP 9 offers customizable financial reports such as profit and loss statements, cash flow statements, and trial balances, providing insights into the financial status of the institution.

Payroll Management: It facilitates payroll processing by automating tasks such as salary calculations, deductions, and statutory compliance related to payroll taxes.

edu DIBON FOR ATTENDANCE MANAGEMENT

edu DIBON

It is a platform for parents, teachers, and students to communicate with each other. Parents can get details of the performance of their wards, attendance, fee details, notices, and many other aspects of a child's academics and related matters.

Features include:

- Dashboard
- Attendance Management

edu DIBON in the institution is used for:

- Handling all administrative and management functions.
- Mass storage of student's personal and academic data.
- Instant SMS to the parents about announcement of fee, attendance, etc.
- Customized software based on the institutions requirement.

PACIFYCA SOFTWARE

PACIFYCA

Pacifyca is an innovation in education system, bringing synergy between teachers, students, and parents. Pacifyca provides the facility to carry out all day to day activities of the school such as admission, attendance, accounts etc., making them all real time, fast, easy, efficient and accurate.

This College ERP software is a simple yet powerful one point integrated platform that connects all the departments of an institution.

Features of Pacifyca:

- Simple and Easy User Interface
- Reduced costs
- Personalized
- Role-based Access Flexible Functionality and Deployment
- Fully Cloud based System

SOFTWARE SERVICES AGREEMENT

Doc No: 2021/ 001/ABE - PCY /SLA

This Agreement is dated 26th March 2021 between

Principal
ST. ALOYSIUS DEGREE COLLEGE
Sarvajnanagar, Cox Town,
Bangalore - 560 005

ATC Online LLP (ATCO), incorporated and registered in India, whose registered office is at 9/1 1, 1st Floor, Lloyd Road, Cooke Town, Bangalore-560005, India. (Hereinafter referred to as the "First Party" or "Licensor")

Statutory Alert:
1. The authenticity of this Stamp certificate should be verified at www.shcilestamp.com or using e-Stamp Mobile App of Stock Holding. Any discrepancy in the details on this Certificate and as available on the website renders it invalid.

AND

Archdiocesan Board of Education (ABE), incorporated and registered in India, whose registered office is located at Paalanaa Bhavana, Archdiocesan Pastral Centre, # 5, Nandidurg Road, Jayamahal Extension, Benson Town Post, Bengaluru, Karnataka - 560046 (Hereinafter referred to as the "**Second Party**" or "**Licensee**")

Following are the mutually agreed terms that remain valid until superseded by a revised agreement mutually endorsed by the both parties.

1. Goals & Objectives: The purpose of this Agreement is to ensure that, the proper elements are in place for the successful execution of the project.

2. Statement of Work: The scope of the project is limited as defined here. The following modules of Pacifyca are licensed by the Licensor to all the institutions (refer Appendix A) specified by the Licensee as part of this agreement.

Pacifyca Web and Mobile App customized to the consolidated requirements put forward by ABE on behalf of the schools under the following modules:

1. **Management View:** Application is built to add and handle multiple institutions belonging to same management. Management head can view the progress of each institution running under their management.
    a. **Management Dashboard:** This displays the complete student strength, admissions conducted and fees collected of each institution.
    b. **Management Reports:** Admission statistics report is generated with respect to the online applications received / processed / admitted for the current academic year. Student data will be categorised based on the class (grade), religion, gender and group thus generate total student strength of the institution.
    c. **Other Reports:** Management will also have a provision to generate reports like :
    Admission Report
    Daily Fee Collection Report
    Fee Register Report
    Payment Validated Report - Concession / No Concession
    Fee Pending Report

2. **Dashboard:** It displays and provides quick access to all the elements of Pacifyca. User can view the following information on the dashboard
    a. Quick Student profile search
    b. Pie Chart displaying the strength of institution
    c. Student Profile
    d. Student Attendance
    e. Student Marks

Principal
ST. ALOYSIUS DEGREE COLLEGE
Sarvajnanagar, Cox Town,
Bangalore - 560 005

3. **Admin Module:** It is a unique module which helps to form synergy between Parents, School and Teachers. It automates the entire process of a student enrolling to a school or college. It includes features from the time of student registration till the generation of school certificates. Sub modules included are –

a. **Student Registration** - A single screen to capture the complete information of a student/parent and utilize the data for the Student Management System.
b. **Student History** - Students past history can be viewed here. Student search can be filtered based on the course, section and year of study. Provision is provided to export the data in PDF format. Student details can be easily viewed further by column search on filtered student data.
c. **School Circulars & Notices:** Automates the process of sending circulars and notices to the parents by the management.
d. **Timetable:** Provision of uploading the class timetable which can be customised as per the periods set for an institution course subjects.
e. **Institute Events Calendar:** User friendly feature to set the school calendar for the entire academic year with options like holidays, events & reminders.
f. **Homework / Assignments:** Provision for sending assignments and daily homework for a particular subject.
g. **Progress Card**: Automated report card can be generated of each student.
h. **Push / SMS Notifications:** Students can receive the activities of the school through SMS or through a push notification as a reminder. Messages can be sent to a particular student as well as for a group of students.
i. **Student Promotion Module:** Automates the process of promoting a student to an upper grade.
j. **Certificates:** Provision to generate the customised certificates as per the requirement of a student or parent. Certificates available are –
   Transfer Certificate
   Conduct Certificate
   Bonafide Certificate
   Study Certificate
k. **Admin Reports**: Head of the institution will have a provision to generate reports like -
   Admission Report
   Daily Fee Collection Report
   Payment Validated Report - Concession / No Concession
   Fee Pending Report
   Class Attendance Report - Daily / Hourly
   Progress Report
   SMS Delivery Report - Daily/Weekly
   Admission Statistics Report
l. **User Access Control / Roles & Permissions**: Administrator can create new users for the staff members and allocate and restrict the permissions for them to access the system.
m. **Data Management**: Administrator has rights to create and configure the entire process of the school which includes student data management for an academic year.

Teacher Module: This module automates the entire process of teachers' roles and responsibilities of a particular class, where in a teacher can update or send updates periodically on the features through their user logins. Sub modules included are –

a. **Attendance:** Teachers can mark the attendance of the students allocated for them either subject wise, daily twice or daily once and notify the parents if the child is absent.

Principal
ST. ALOYSIUS DEGREE COLLEGE
Banajhanager, Cox Town

b. **Assignment:** Teachers can create and assign assignments to the students and send a reminder to their parents through push notification or SMS. Images & colourful assignments can also be sent through the system.

c. **Parent Interaction & Class Activities:** Teachers can send the daily class or school activity to the parents through the system.

5. **Parent Module:** This module which is built for the parents provides the timely school updates of their child. A parent has complete right to know their child's activities from the time of enrollment. So here we provide a platform especially for the parents to get to know all the activities of their child. Sub modules are –

   a. **View Attendance:** Parents can view the attendance status of their child and notifications received from the teachers related to the attendance.

   b. **View Report Card:** Parents can view the progress report of their child either consolidated or exam wise.

   c. **View Notices & Circulars:** Parents can view the school notices & circulars on a timely basis.

   d. **View Homework / Assignments:** Parents can view Homework/Assignments assigned their Child by getting information through SMS, notification.

   e. **Fees Payment / History:** Parents can get the payment history and the reminders for the installments.

   f. **Student Profile:** Parents can view the profile of their child and get updates on the class they are enrolled.

6. **Fee Module:** The Fee Module is the one of the most automated fee calculation module. Apart from being automated it is, at the same time, flexible enough to accommodate the varying nature of fee payments that most of the educational institutions come across.

   a. **Manage Fee:** Manage Fee module effortlessly manage fee collection and maintain fees related data. It allows to maintain user defined fee structure. User can define various types of fee categories (account head) like Tuition, Management, Government etc. to be collected from a specific year/semester. User can map each account head to a bank account so that fee amount can be split and credited to their respective bank accounts in one go. This module also allows to configure fee structure based on courses/classes.

   b. **Fee Collection:** Fee collection module allows user to collect fees across the counter or online. Upon entering unique Student Id, system will display the fees based on student's class/course combination. It allows user to give concession and scholarship. The module automatically calculates the pending fees, previous fee payment details, deductions and concessions if any applicable to the selected student. In addition to the above, the user is also given the option to allow payment in instalments.
   It generates multiple copies of Challan (Student copy, Bank copy and Institution copy) to enable students to pay fee by Cash, Cheque, DD or Online. System can send notifications to Parents/Students reminding them of fee payment. Following reports are available in the system.

   - Fee collection Report
   - Pending Fee Report
   - Fee Receipt
   - Payment Validation Report

Principal
ST. ALOYSIUS DEGREE COLLEGE
Baniyhanagar, Cox Town,
Bangalore - 560 005

7. **Online Payment:** Pacifyca offers sophisticated online payment facility for parents to pay fees directly through website from home in a matter of a few minutes. The fees get credited directly to the institute's bank account. Parents can pay large fee amounts safely using Debit Card, Credit Card, Net Banking, UPI or Wallet
System has a unique feature of accepting single fee amount and crediting to multiple bank accounts based on fee configuration.

   a. **Reconciliation & Settlement:** Reconciliation and settlement module follow convenient and simple process flow to reduce time and hassles of reconciling and settling online payments. It is an end-to-end process that loads source files, matches transactions from multiple sources, manages exceptions, resolves conflicts and generates file reports. It automatically validates all fee payments initiated through online payment system. It generates following reports for a given date range
      - Payment Repon
      - Reconciliation Report
      - Settlement Report
      - Payment Dispute Report

   b. **Tally Integration:** Fee module is tightly integrated with Tally Accounting Software. Every entry made into the system can be registered in Tally System thus avoiding mundane work of entering fee details again into Tally System. User can opt for Online or Offline mode for integration.
      Online Mode: All accounting entries will be updated into Tally System instantly in this mode. Both the systems should be available on internet to avail online integration mode.
      Offline Mode: Pacifyca System generates an XML file containing fee details in Tally format. This file needs to be uploaded into Tally System to synchronise the data in Tally. Here user has an option to generate file for each individual entry or one consolidated entry for the day. In this mode Tally System may not be required to be available on internet.

8. **Human Resource Management:** Human Resource module deals with the management of staff and their related strategies. This module provides the features like contract management, leave management and payroll.

   a. **Employee Management:** This module gathers all information concerning each staff member at one place. It helps to maintain staff status, job titles, contract type and their schedule.

   b. **Leave Management:** Leave Management module keeps track of leave taken by each staff member. Staff member raise the request for leave and their superiors approve and validate them, all in just a few clicks.
      Managers get a view of their team member leaves in one complete view, to keep the team well-organized and to easily forecast the distribution of tasks during the absence of their team members.

   c. **Payroll:** Payroll module maintains contract, salary structure of staff members and generates payslip.
      Contract Module: This module keeps track of salary configuration, salary structure and salary schedule e.g. monthly, weekly, quarterly, etc.
      Salary Rules: Maintains set of rules for computation of salary based on components like basic, allowance, deduction etc. Admin can define salary rules by using the expression

INFORMATION AND LIBRARY NETWORK CENTRE

INFLIBNET (INFORMATION AND LIBRARY NETWORK) AND N-LIST (NATIONAL LIBRARY AND INFORMATION SERVICES INFRASTRUCTURE FOR SCHOLARLY CONTENT)

In higher educational institutions, access to a wide range of academic resources is crucial for research and learning. In this context, INFLIBNET (Information and Library Network) and N-LIST (National Library and Information Services Infrastructure for Scholarly Content) play significant roles.

INFLIBNET is an autonomous Inter-University Centre of the University Grants Commission (UGC) of India.

It focuses on modernizing university libraries in India and connecting them through a nationwide network to facilitate scholarly communication.

Uses in Higher Educational Institutions:

1. Library Automation:

INFLIBNET provides tools and services to automate library operations, including cataloging, circulation, and acquisition, enhancing the efficiency of library management.

2. Access to E-Resources:

It offers access to a vast collection of e-resources, including e-journals, e-books, and databases through initiatives like e-Shodh Sindhu, which aggregates content from various publishers.

3. Digital Repositories:

The platform supports the creation of digital repositories for institutional research output, including theses, dissertations, and research papers through services like Shodhganga and ShodhGangotri.

4. Training and Capacity Building:

INFLIBNET conducts workshops, seminars, and training programs for librarians, researchers, and students to enhance their skills in using digital libraries and other ICT tools.

5. Research Support:

It provides tools like plagiarism detection software (e.g., URKUND) to maintain the quality and integrity of academic research.

N-LIST (National Library and Information Services Infrastructure for Scholarly Content)

N-LIST is a project under the e-ShodhSindhu Consortium, which is jointly executed by the INFLIBNET Centre and the INDEST-AICTE Consortium. It provides access to e-resources to colleges and other higher education institutions.

Uses in Higher Educational Institutions:

1. Access to E-Resources:

N-LIST provides access to a wide range of e-journals, e-books, and other scholarly content. This is particularly beneficial for colleges that might not have the resources to subscribe to such vast collections individually.

2. Cost-Effective Resource Sharing:

By aggregating subscriptions at a national level, N-LIST reduces costs and ensures that even smaller institutions can access high-quality academic resources.

3. Remote Access:

Students and faculty can access e-resources remotely, enabling continuous learning and research activities regardless of their location.

4. Broad Coverage of Disciplines:

N-LIST covers a broad range of academic disciplines, ensuring that institutions can support diverse educational and research needs.

5. Enhancing Teaching and Learning:

The availability of a wide array of scholarly content enhances the quality of teaching and learning, providing students and faculty with up-to-date information and research findings.

FEATURES OF INFLIBNET:

- Library Automation: Enhances library management efficiency.
- Access to E-Resources: Provides e-journals, e-books, and databases.
- Digital Repositories: Supports institutional repositories.
- Training: Offers skill-building workshops and seminars.
- Research Support: Provides plagiarism detection tools.

FEATURES OF N-LIST:

- Access to E-Resources: Offers a vast collection of scholarly content.
- Cost-Effective: Reduces subscription costs for institutions.
- Remote Access: Enables access to resources from anywhere.
- Broad Coverage: Supports a wide range of academic disciplines.
- Enhances Learning: Improves the quality of teaching and research.

Both INFLIBNET and N-LIST are instrumental in providing higher educational institutions in India with the necessary digital infrastructure and resources to support advanced learning, teaching, and research activities.

UNIFIED UNIVERSITY AND COLLEGE MANAGEMENT SYSTEM (UUCMS)

UNIFIED UNIVERSITY AND COLLEGE MANAGEMENT SYSTEM

Unified University and College Management System (UUCMS) is a flagship project initiated by the Department of Higher Education, Government of Karnataka in India. It is the first system of its kind in the country.

The UUCMS will centralize and streamline the activities of Higher Education Institutions. It will handle admissions, examinations, degree awarding, class monitoring, lesson plans, and student attendance. Additionally, the system will manage faculty, including performance assessment and promotions.

The UUCMS is a joint effort between the Centre for Smart Governance, Government of Karnataka's Department of E-Governance, and the State Project Monitoring Unit under the Department of Higher Education. The State Project Monitoring Unit (SPMU) is responsible for overseeing the project's progress and ensuring that all stakeholders remain connected during the development of UUCMS.
