**REPORT 2022 - 2023**

St Aloysius Degree College observed the Partition Horrors Remembrance day on 14th August 2022 with an objective to remind ourselves of the pain and suffering faced by the people of India during the partition. Tarun of second year BA also gave a speech on the brief history of partition of India and the loss of lives that took place thereafter.

The partition of India was a story of unprecedented human displacement and forced migration. It was a story in which millions sought new homes in environments that were foreign and resistive. The partition of India was not only a story of a violent divide based on faith and religion but it is also a story of how a way of life, a culture and long period of co-existence came to a disruptive end suddenly.

While around 6 million non-Muslims moved out from erstwhile West Pakistan, another 6.5 million Muslims escaped from the Indian parts of Punjab and Delhi primarily, into West Pakistan. Additionally, in the east about 2 million non-Muslims moved out of East Bengal (Pakistan). Later in 1950 another 2 million non-Muslims moved into West (India) Bengal. It is estimated that about one million Muslims had moved out of West Bengal.

Overall, approximately around 500,000 people lost their lives during the partition of India.

An exhibition from 12 August to 1 Sept 2022 with several photos was also displayed in the college for students to learn more about the history of partition of India, the demarcation of border between India and Pakistan and the massive human displacement that took place resulting in several thousand people becoming refugees.

On 5<sup>th</sup> September 2023 was marked as the international democracy day. This was given importance as reading the preamble of the constitution and sensitizing among the citizens.
